

# Penguin life Cycle

## Instruction:

- Print out the provided penguin body parts. Cut them out and assemble them to create a penguin.
- Print out the wheel and the wheel card. Cut out the wheel and glue it onto the penguin's body shape. Make sure the wheel is aligned with the appropriate sections of the penguin.
- Print out the Emergent Reader and read the sentences about penguins.
- Use the Penguin Life Cut and Paste page. Cut out the pictures of the penguin life cycle and paste them into the corresponding sections on the page.
- Refer to the Penguin Life Cycle Anchor Chart to learn and discuss the different stages of the turkey life cycle.
- Lastly, add a penguin life cycle to the worksheet. Cut out the pictures of the penguin life cycle and paste them into the provided spaces on the page.
